fincity
Vice President Of Engineering
November 2016 - March 2018 (1 year 5 months)
Bangalore

Cloud, Mobile, Web, Cybersecurity, Data Governance, Risk/Threat Management, Vendor & Asset Management, inter-disciplinary teams, and defined organization & Internal Processes

We are a group of seasoned investment bankers, lenders, engineers and operators. We arrange Housing Finance across Home Loans, Real Estate Developer Finance and Loan Against Property. This year we have already disbursed #800 Cr- and building an artificially intelligent loan disbursal system and bank to reduce the current sanction time from 100+ days to 10 days. We are looking for highly motivated hackers and geeks to join our team and build a suite of high impact & secure products.

Dunst Consulting LLC

Director Of Engineering

January 2014 - October 2016 (2 years 10 months)

Building the architecture, development & deployment strategy, and managing the products to their success.

Rhaegan Technologies LLP

Director Of Engineering

April 2012 - January 2014 (1 year 10 months)

Bangalore

I lead the team into building & designing products. Rhaegan was a services based firm who built apps, backend, and security for a range of domains and startups. We were also a Microsoft BizSpark company, building our ISMS.

Microsoft

1 year 3 months

Microsoft Imagine Cup

July 2011 - September 2012 (1 year 3 months)

New York / Sydney

I was able to combine my passion for technology and marketing for Microsoft Imagine Cup 2011 in New York, and 2012 in Sydney. We worked on online strategies, digital media, social-media, analytics and insights to cover 250+ entrepreneur teams, and give them visibility in all the online nations.

Microsoft TechEd India 2012

January 2012 - April 2012 (4 months)

Bangalore

I was core team member of Microsoft TechEd India 2012. Part of Planning, Assessment and Execution. I was responsible for online presence, planning & developing Rock Star Program (Tech Community), building and curating content for streaming, and managed vendors for quality testing, social media and logistics.
